

**IAN Airstrip Classification (March 2012)**

<b><u>Hazardous</u></b>	<b><u>Wild</u></b>	<b><u>Primitive</u></b>	<b><u>Developed</u></b>	<b><u>Community</u></b>
<p><i>Airstrips with no facilities that have extremely hazardous conditions and require special skills or equipment beyond the normal anticipated for general aviation and use is discouraged</i></p>	<p><i>Airstrips may have basic navigation aids such as windsock and runway markers and limited or no user facilities. Typically located in the remotest settings away from roads and communities.</i></p>	<p><i>Airstrips have basic navigational aids such as windsocks and runway markers and some limited user facilities. Typically located in remote settings but may be accessed by low-standard road.</i></p>	<p><i>Airstrips have basic navigational aids and some additional services such as restrooms or camping facilities. May have road access to nearby attractions. Typically located in areas of high use, often in remote settings but may be accessed by improved roads.</i></p>	<p><i>Airstrips may have additional navigational aids and radio service and other services associated with proximity to communities or other attractions. Typically located near a community with access to full-service roads and close to some development.</i></p>
